CORRECTED PERMIT

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Family Trust, hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. ***********************************	•	
The applicant Jack S. Oakes & Arlene D. Oakes Family Trust Rupe Family Trust Gary Asher Sheerin & Mary Johnn Hartman Sheerin Family Trust, hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. 1. The source of the proposed appropriation is Underground 2. The amount of water applied for is 0.10 second-feet (a) If stored in reservoir give number of acre-feet 3. The water to be used for Commercial and Domestic 4. If use is for: (a) Irrigation, state number of acres to be irrigated (b) Stockwater, state number and kinds of animals to be watered (c) Other use (describe fully under No. 12. "Remarks") (d) Power: (1) Horsepower developed (2) Point of return of water to stream 5. The water is to be diverted from its source at the following point SEMSEM, Sec. 2, T. 10 N., R. 23 E., M.D.B.EM., or at a point from which the SE Corner of said Sec. 2 bears 558'37'03"E, a distance of 1351.49' 6. Place of Use a portion of the SEMSEM, Sec. 2, T. 10 N., R. 23 E., M.D.B.EM., Parcel "A" of Lyon County Parcel Map 186937 7. Use will begin about January 1 and end about December 31, of each year. 8. Description of proposed works Well, pump, and distribution system. 9. Estimated cost of works \$10,000.00 10. Estimated time required to construct works 2 years 11. Estimated time required to construct works 2 years 12. Remarks: Water will be used for commercial office space and landscaping not exceeding 2.02 Acre-Feet per Year. By Bruce L. Rice - Rice Engineering S/Bruce L: Ri	Date of filing in State Engine	er's Office APR 16 1998

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: $\frac{1}{2}$

This permit is issued subject to existing rights. understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintaine \bar{d} in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress

and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.

OF STATE ENGINEER APPROVAL

. This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water /evel. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress

and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued under the provisions of NRS 534.120(2)

as a preferred use.

The amount of water to be appropriated shall be γ imited to the amount which can be applied to beneficial use, and not to exceed 0.10 cubic feet per second, but not to exceed (0.512 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

Application of water to beneficial ase shall be filed on or before:

October 28, 2000

November 28, 2003

Proof of completion of work shall be filed before:

November 28, 2000

October 28, 2003 Proof of the application of water to beneficial use shall be filed on or before:

Map in support of proof of peneficial use shall be filed on or before: <u>N/A</u>
